No

If not would you be willing to learn?

No

### UPLOAD CV

Please upload your most recent C.V. (please ensure this is in .doc, .docx or .pdf format)

 Curriculum Vitae Uploaded

### SUPPORTING STATEMENT

Please say why you are interested in this post and how your skills and experience make you a suitable candidate. Pay particular attention to the essential criteria in the advert, remembering to include experience and/or achievements gained through previous roles.

I was intrigued by the post as the opportunity was at level 4 and it stated that you were

looking for passionate individuals. I recently completed my BTEC in software development at level 3 and I'm looking for an opportunity to progress my career in software development in which I am passionate about. In my free time, I enjoy learning about web development using HTML and CSS as having little experience using WordPress. In addition, I have a Raspberry Pi in which I love learning about the Linux OS and developing code. I am eager to learn and believe my enthusiastic and productive personality is in line with your companies goals. Thank you for your time and I hope my application receives favourable consideration.

## DECLARATION

### General Data Protection Regulation 2018

I hereby give my consent for personal information (including recruitment monitoring data) provided as part of this application to be held on computer or other relevant filing systems and to be shared with other accredited organisations or agencies in accordance with GDPR and the Data Protection Act 1998.

I declare that the information given in this document is true and complete. I agree that any deliberate omission, falsification or misrepresentation in the application form will be grounds for rejecting this application or subsequent dismissal if employed by the organisation.
